SUMMARY

Strategist transforming global software and AI ecosystems with high-velocity, cross-border execution. Twenty-three years in automotive, from powertrain engineering to software strategy in Shanghai. Exploring new leadership opportunities.

PROFESSIONAL EXPERIENCE

2025-2026 **Manager, Global Planning & Joint Ventures, OnStar Product Marketing (International) - General Motors**
Global planning and OnStar product marketing. Aligned OnStar US, Middle East and Mexico, the vehicle brands and three Chinese JVs to deliver OnStar connectivity on China-sourced export vehicles across 8 regions.

2022-2025 **Deputy Director, Software Strategy - SAIC-GM, Shanghai**
Software strategy in China, cross-border execution. China ADAS market research and pitch deck supported GM's approval of $167M for L2++ ADAS development; work on current and next-generation Cadillacs, redefining luxury for young Chinese buyers who expect experiences, technology and autonomy.

2020-2022 **Business Strategy Manager, Connected & OTA Services - General Motors**
Connected services and over-the-air updates.

2018-2020 **Product Manager, Buick Encore GX and Chevrolet Trailblazer - General Motors**
Small SUVs, from plan to launch.

PROFESSIONAL EXPERIENCE, CONTINUED

2014-2018 **Global Product Manager, compact / mid crossovers - General Motors**
Chevrolet Equinox.

2003-2014 **Engineering - Federal-Mogul, Chrysler, Johnson Controls**
Powertrain and vehicle interiors.

EDUCATION

2014 **MBA - Michigan Ross, University of Michigan**
Master of Business Administration.

2007 **BSME, cum laude - Kettering University**
Bachelor of Science in Mechanical Engineering.
